The original data graph corresponding to the protein band TH in Figure 2D is shown.

The original data graph corresponding to the protein band GAPDH in Figure 2D is shown.

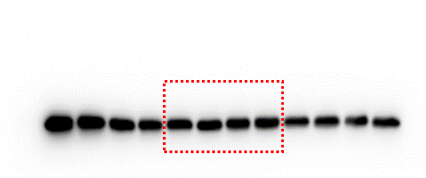

The part within the **red box** is the display section.

The original data graph corresponding to the protein band PDE4B in Figure 4A is shown.

The original data graph corresponding to the protein band GAPDH in Figure 4A is shown.

The part within the **red box** is the display section.

The original data graph corresponding to the protein band PDE4B in Figure 4C is shown.

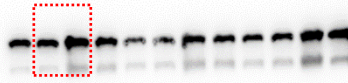

The original data graph corresponding to the protein band GAPDH in Figure 4C is shown.

The part within the **red box** is the display section.

The original data graph corresponding to the protein band PDE4B in Figure 5A is shown.

The original data graph corresponding to the protein band GAPDH in Figure 5A is shown.
