

ARRIVE 2.0 essential 10 checklist

Title of Study: Liensinine Suppresses Collagen-Induced Platelet Activation via PLC γ 2–PKC–Ca²⁺ Signaling in Human Platelets

ARRIVE 2.0 essential 10 item	Description and Location in Manuscript
Study Design	Materials and Methods–Section 2.11
Sample Size	Materials and Methods–Section 2.11, Results–Section 3.5 and Figure 5
Inclusion/Exclusion Criteria	Materials and Methods–Section 2.11
Randomisation	Materials and Methods–Section 2.11
Blinding	The recorded images were coded before analysis and occlusion time was assessed by investigators blinded to the treatment.
Outcome Measures	Materials and Methods–Section 2.11, Results–Section 3.5 and Figure 5
Statistical Methods	Materials and Methods–Section 2.12
Experimental Animals	Materials and Methods –Section 2.11
Experimental Procedures	Materials and Methods–Section 2.11 and Results–Section 3.5
Results	Results–Section 3.5 and Figure 5
