The authors would like to correct the author name and the Conflicts of Interest statement. The author name was incorrectly stated as “Richard Swinburne” and should be corrected to “Richard Swinbourne”. In addition, errors were introduced in the statement has been revised to accurately reflect the authors’ disclosure information. The revised statement includes the correction of Fraser C. Horn’s consultancy activities, as well as additional disclosure information regarding Professor John Nolan’s consultancy activities and shareholder status [1].

The authors declare that these corrections do not change the results or conclusions of this paper. We sincerely apologize for having this error in the article, and apologize for any inconvenience caused.

The authors have provided corrected version of the Author Information and Conflicts of Interest sections here:

Author Information

Parimala Sivaperuman, Fraser C. Horn, James Stringham, Richard Swinbourne, John Nolan

Conflicts of Interest

Professor John Nolan performs consultancy activities via his company NOW-Science consultancy limited for companies selling food supplements containing the bioactives of the subject matter of this review. Professor Nolan is also a shareholder of Supplement Certified Limited, a third-party supplement analysis company (spinout of South East Technological University). Dr Fraser Horn does consultancy activities via Sports Vision Pro for nutraceutical companies. Dr James Stringham is employed by MacuHealth LP™, company selling carotenoids and omega supplements. The remaining authors declare no conflicts of interest. However, these companies had no role in the handling or conduct of the study. The author(s) had full access to all data in the study and take full responsibility for the integrity of the data and the accuracy of the data analysis. Professor Nolan is serving as Guest Editor of this journal. We declare that John Nolan had no involvement in the peer review of this article and has no access to information regarding its peer review. Full responsibility for the editorial process for this article was delegated to Torsten Bohn and Haixia Yang.
