

# BJHM article reviewers 2016

**At the *British Journal of Hospital Medicine*, we would like to express our huge appreciation for all the efforts of our reviewers to help make the journal a success.**

We would like to thank you all for spending valuable time and effort to help us maintain standards, improve accessibility and provide reliability for our articles. Your hard work has helped us continue as the leading monthly review journal for hospital doctors of all grades and specialties, and without you we could not have achieved this.

We would also like to thank you for all your outstanding support for BJHM and we look forward to working together again in the near future. [BJHM](#)
