

BJHM article reviewers 2017

At the *British Journal of Hospital Medicine*, we would like to express our huge appreciation for all the efforts of our reviewers to help make the journal a success.

We would like to thank you all for spending valuable time and effort to help us maintain standards, improve accessibility and provide reliability for our articles. Your hard work has helped us continue as the leading monthly review journal for hospital doctors of all grades and specialties, and without you we could not have achieved this.

We are delighted to have partnered with Publons (<https://publons.com/home/>) to enable our reviewers to verify and store a record of every peer review they perform, allowing them to keep track of this work for their individual evaluations, job applications, and continuing professional development.

We would also like to thank you for all your outstanding support for BJHM and we look forward to working together again in the near future. [BJHM](#)
