

BJHM article reviewers 2018

At the *British Journal of Hospital Medicine*, we would like to thank our reviewers for all their hard work to help the journal maintain its standards.

We would like to thank you all for spending valuable time and effort to help us maintain standards, improve accessibility and provide reliability for our articles. Your hard work has helped us continue as the leading monthly review journal for hospital doctors of all grades and specialties, and without you we could not have achieved this. We are continuing to partner with Publons (<https://publons.com/home/>) to enable our reviewers to keep track of this work for appraisals, job applications and continuing professional development.

We would also like to thank you for all your outstanding support for BJHM and we look forward to working together again in the near future. **BJHM**
